JOINING TECHNOLOGIES ANNOUNCES PROMOTIONS OF TWO MANAGERS

East Granby, Conn., April 19, 2017 – Joining Technologies Inc. has announced the promotion of two employees to key management positions in the company effective April 1. The company is an innovator in precision fusion processes, including laser and electron beam welding.

Greg Miller has been promoted to General Manager of Joining Technologies. He has overall management responsibility for the company's operations, which include delivering laser and electron beam welding, machining and supply chain services to customers. Miller joined the company in 2005 and has held increasingly responsible positions, most recently as Operations Manager. He is a graduate of Five Towns College in Dix Hills, N.Y.

Alex Wilson has been promoted to Engineering Manager of Joining Technologies. He is responsible for the company's engineering services, including process development, manufacturing engineering, and continuous improvement engineering. Wilson joined the company in 2010 and held positions of increasing responsibility, most recently as Engineering Coordinator. He graduated from Hofstra University in Hempstead, N.Y. with a degree in Mechanical Engineering.

About Joining Technologies

Headquartered in East Granby, Conn., Joining Technologies Inc. is an innovator in precision fusion processes, including laser and electron beam welding and laser cladding. The company's engineering talent continues to develop economical solutions for joining metal components, primarily in the medical

The image features the Joining Technologies logo, which consists of a stylized circular graphic with a downward-pointing triangle above it, and the text "JOINING TECHNOLOGIES" below. To the right of the logo is a dark blue horizontal bar containing the text "▼ ENGAGE ▼ INNOVATE ▼ DELIVER". Below this bar is the company's address: "17 Connecticut South Drive | 17 Kripes Road East Granby, CT 06026". Further down is the phone number "860-653-0111" and the website "joiningtech.com". At the bottom of the contact information is the text "AS9100 | NADCAP | ASME BPVC | ISO 13485". The entire graphic is surrounded by several colored squares in orange, green, purple, and teal.
